WALKER COLLEGE OF BUSINESS

Girls NCWIT Aspire IT Camp and Boys Robotics Camp 2019

Day 5
Friday, July 26th

On Friday, July 26th campers excitedly gathered in the auditorium for one last time. Once the day began, campers went off into their groups and began rehearsing once more before parents arrived after lunch.

After lunch, each group (IoT, App Inventor, Scratch, and Data Analytics) had a designated room in which their presentations would take place. Parents circulated Peacock Hall hearing all about what their children did this past week at Appalachian State.

Once all presentations were finished, family, staff, and campers all met in the auditorium for awards and final remarks by Dr. Iyer.
