APPALACHIAN STATE UNIVERSITY®
WALKER COLLEGE OF BUSINESS

Girls NCWIT Aspire IT Camp and Boys Robotics Camp 2019

Day 3
Wednesday, July 24th

On Wednesday, July 24th, campers started the day off by saying who their IT role model was and why. Campers then went to their respective groups and continued preparing for Friday's presentation.

After lunch, the campers had the pleasure of hearing from Dr. Maureen Allen and Crispin Haydock who taught the campers important leadership and communication skills such as a firm handshake, how to communicate with a certain audience, and internet etiquette. The campers also attended a session led by Sara Figlow and Erich Schlenker who helped the campers develop their entrepreneurial skills by talking about famous entrepreneurs in the past and what their work has become today.
